

Further to yesterday's Government statement, we are delighted to confirm that our clubs can continue to offer organised bowling activity in a Covid-safe manner.

Sport England has announced, following clarification from Government, that people can continue to take part in organised outdoor sports when restrictions on social gatherings are introduced from Monday 14th September.

With the end of the season fast-approaching for the majority of our clubs, we trust players will continue to enjoy our sport in a socially-distant manner, particularly if wishing to play fours at this time.

We also encourage clubs to take this final opportunity to introduce new people to our sport through our 'Let's Roll' initiative, which has already seen nearly 1,000 individuals sign up for a free trial session at their local club, and the Great British Week of Sport (Saturday 19th September to Sunday 27th September).

In light of the clarification received, our guidance issued on 31st July 2020 remains unchanged.
